

Curriculum Vitae

1. PERSONAL DATA

Motamed Sandrine, born December 14th 1970 in Geneva. Swiss nationality.

Professional addresses:

- Faculty

Institute of Global Health (IGH) - former Social and Preventive Medicine (ISPM)
University of Geneva. Biotech Campus. G6.02. Chemin des Mines 9, 1202 Genève
Email: sandrine.motamed@unige.ch
<https://www.unige.ch/medecine/isg/fr/collaborateurs/>

- Association

Geneva association for community development
[Association genevoise pour le développement communautaire]
Rue Adrien -Lachenal 18, 1207 Geneva
Email: s.motamed@developpement-communautaire.org
www.developpement-communautaire.org

- Medical practice

Medical Center Grand-Saconnex
Rue du Sonnex 23, 1218 Le Grand-Saconnex
<http://cmgs.magellan.ch/>

2. PRESENT POSITIONS

Senior Lecturer [Maître d'enseignement et de recherche], since 2010

IGH, Department of health and community medicine, University of Geneva

In charge of the collaboration (research and teaching) with Hokkaido University and Nitobe College, Sapporo, Japan, since 2013. Previously Adjunct Associate Professor, 2010-2013. Department of Global Health, Faculty of Medicine, University of Hokkaido and visiting Professor in 2016.

Director, since 2015

Geneva association for community development
[Association genevoise pour le développement communautaire]

Physician in private practice, since 2015

General internal medicine and prevention and public health, Medical Center Grand-Saconnex, Geneva
Former chief resident, Geneva University Hospital (HUG)

3. DIPLOMAS

Secondary school

1990 Maturité (in sciences), Geneva

University

1996 Competence in Managing field laboratories in tropical regions, Faculty of Medicine, Geneva

1998 Certificate in tropical medicine, Faculty of Medicine, Geneva

Thesis title: Qualité bactériologique de l'eau des puits d'une circonscription sanitaire, Grande Mefou, Cameroun.

[The bacteriological quality of wells in a sanitary district, Grande Mefou, Cameroon.]

1998 **Swiss Federal Doctor's Diploma**, Faculty of Medicine, Geneva

Post-graduate studies

2000 **Doctor of Medicine**, Geneva

Thesis title: Eau Secours ! Qualité bactériologique de l'eau de boisson des petites communautés rurales, Grande Mefou, Cameroun [Help! The bacteriological quality of drinking water of small rural communities, Cameroon]

2001 Certificate in Traveller's health, Swiss Tropical Institute, Basel

2001 Certificate in Accidents due to venomous and poisonous animals, Swiss Tropical Institute, Basel

2002 Certificate in Water and Sanitation Engineering, ICRC, CHYN, IDS, Geneva

2002 Certificate course in Advanced Trauma Life Support, Geneva

2004 **Specialist FMH in internal medicine** [FMH: Swiss Medical Federation]

2006 **Master of Advanced Studies in Public Health**, University of Geneva and Swiss School of Public Health+

Thesis title: Etude de faisabilité pour la création d'un registre fribourgeois des tumeurs. [Feasibility study for the creation of a register of tumors in Fribourg]

2010 **Specialist FMH in Prevention and Public Health**

Continuing education

2016 Cours intensif en gestion des fondations donatrices [Intensive course in foundations management]. Center for Philanthropy Studies, WISE, in collaboration with Ecole Polytechnique Fédérale Lausanne (EPFL)

4. TRAINING AND EDUCATION SINCE SECONDARY SCHOOL DIPLOMA

1990-1998: Medical school, University of Geneva

Within the framework of medical studies:

August-September 1994

Microbiology, Epidemiology and Public Health, Hôpital Mahosot, Vientiane, RDP Laos

- Creation of the first microbiology laboratory, cooperation between Laotian Ministry of Health, Faculty of Medicine of Geneva and Committee for cooperation with Laos for science and education;
- Study of the aetiologies of infectious diarrhoea in children of the Vientiane region;
- Organisation of the 1st Lao medical congress on infectious diarrhoea, Vientiane;
- Household investigation of the prevalence of infectious diarrhoea, suburbs of Vientiane.

June-July 1995

Infectious paediatric diseases, Ste-Justine Hospital, Montréal, Canada

1996-1999 (5 visits)

Tropical medicine, Public health, Management of water and sanitation, Cameroon

- Gynaecology and obstetrics, Hôpital central, Yaoundé;
- Bacteriological analysis of water pump wells in dry and wet seasons, followed through 3 years, Grande Méfou;
- Adaptation and validation of the health inspection score (of the WHO) of water pump wells, Grande Méfou;
- Validation of a water pump well disinfection technique (chlorine), Grande Méfou;
- Focus group on drinking water needs and acceptability of a solar water disinfection technique (SODIS), Mekomba;
- Bacteriological analysis of all drinking water (wells, rivers and backwaters) of a small local community, Mekomba;
- Setting up of a solar water disinfection technique (SODIS), bacteriological quality control and follow-ups after 7 days, 1 month, 6 months and 5 years, Mekomba;
- Study of the impact of manipulation on the bacteriological quality of well water from drawing to consumption, Mfou;
- Training of three health technicians in the bacteriological analysis of water by membrane filtration (Institut Pasteur, Coopération Cameroun Jura Suisse and Ministry of Health), Yaoundé;
- Teaching of hygiene, water and sanitation to health agents of the Grande Méfou, Mfou.

5. PROFESSIONAL ACTIVITIES 1998-2016

As Medical Intern (postgraduate training) 1998-2004

April 1998-September 1999

Emergency and Internal Medicine, Hôpital de la Tour, Geneva

October 1999-September 2000

Intensive care, Cardiorespiratory unit, Cardiovascular and digestive surgery, Hôpital de la Tour, Geneva

6. TEACHING

Teaching sessions written in bold are formal programs of more than one hundred hours per year, with inscriptions and fees (for continuing education).

Pregraduate

2004-2014

- Apprentissage en milieu clinique, médecine communautaire et de premier recours (introduction, problèmes et séminaires). Approximately 10 hours per year depending on the service needs.

2008-

- Santé internationale et médecine tropicale. Coordination (until 2013) and teaching. Approximately 20 hours of teaching per year. In charge of international health examination test and follow-up of memoirs.
- Personne, Santé, Société: 2 hours per year (until 2013), in collaboration with Pr Rougemont
- Occasional contributions: Immersion en communauté (group tutor).

Development of teaching material: collaboration in writing problems, exam tests (including e-based, multiple choice questions, and problem-based models).

Post-graduate

- Occasional contributions: MAS in public health (ISPM and SSPH+)

Continuing education

2006-2014

- **Certificat en pharmacie communautaire et santé publique** [CAS in Community Pharmacy and Public Health]. Coordination and teaching. Approx. 60 hours per year of teaching.
- Occasional contributions: Certificate in community health (ISPM); Architecture and health (Institute of architecture); Multi-faculty programme of humanitarian action (IDS).

Development of teaching material:

- Videos. One example published online by La Revue Médicale Suisse: spirometry for health professionals: <http://titan.medhyg.ch/mh/formation/article.php3?sid=34349>
- Forum (email based collaborating system for community pharmacists)
- Plays (communication skills)
- References documents (more than 500 pages of solved community pharmacy problems), book in progress.
- Lu pour vous. Summaries and comments of relevant articles for primary care physicians published in a column of the Revue Médicale Suisse.

Special Global Health programs with Hokkaido University

2009- 2015

Five workshops in Japan (global health consortium; ageing, declining fertility and sustainable development)

- Teaching and research (global health; ageing and decline fertility; social determinants of health; community participation; health policy; health promotion; globalization and health)
- Designing and implanting collaborative teaching programs

2014-

Development of a multidisciplinary program in Geneva for japanese students of Hokkaido University "Following in the Footsteps of Dr Inazo Nitobe". In collaboration with Prof Tamashiro, Institute for International Collaboration.

- Course coordination (22th-31st March 2014; 27th August-5th September 2014; 15th-24th March 2015; 14th-25th September 2015; 29th february-11th March 2016; 4th-17th September 2016)
- Teaching (social determinants of health, public space public life studies, society medicine, international health, community development, community participation)

2016

Hokkaido Summer Institute

- Teaching (access to water, solar water disinfection system, community participation and health policy)

7. RESEARCH

Community participation and health policy and practice

Town planning and health

Public space public life studies

Ageing and sustainable development

Evolution of health professional profiles

Navigation in the socio sanitary system (health care services improvement)

Multidisciplinary management of chronic conditions (itineraries)

Refractory High Blood Pressure

8. ADMINISTRATIONS (@UNIVERSITY OF GENEVA)

2003-2009 Member of the Faculty Council, University of Geneva, group of teaching and research workers

2005-2008 Member of the Council of the clinical medicine section, HUG

9. HONORS AND AWARDS

Harkness and Careum Fellow, The Commonwealth Fund 2009-2010

10. ACADEMIC SOCIETIES AND FOUNDATIONS

- As a member of the board

Foundation Suisse pour la Santé Mondiale

Association Santé Communauté Genève

- As a member

Swiss Society of Internal General Medicine

Swiss Medical Association

Public Health Schweiz

Association des Médecins de Genève

Société Médicale Genève

11. OFFICIAL POSITIONS

- 1996-1998 Student delegate to the Committee of federal examinations for the medical professions, as well as the Appeals sub-commission at Berne.
- 1997-1998 Student delegate to the Ruth Dreifuss work group "Tomorrow's students, teachers and educational establishments. Consequences for graduate medical training" of the Federal Commission for the reform of medical studies.
- 2002-2005 Committee member of the Association of Institutional Doctors of Geneva (AMIG).

12. TECHNICAL AND SCIENTIFIC ROLES

- 2010-2015 Coordinator and contributor section "Lu pour Vous" Revue Médicale Suisse
- 2011-2015 Advisory board member and reviewer of the Asia-Pacific E-Journal of Health Social Science.

13. GRANTS

Principal grantees Sandrine Motamed et André Rougemont

Swiss School for Public Health+:

2006-2007: 60'000 CHF

2009-2010: 50'000 CHF

2011: 25'000 CHF

Principal grantee Sandrine Motamed

2008 Mimosa (HUG): 4'500 CHF

2009 Harkness and Careum Fellowship, The Commonwealth Fund: 107'000 USD

2013 Swiss Development Agency and Mali-Genève Association: 20'000 CHF

2015 – 2017 Hans Wilsdorf Foundation

14. PATENTS

None

15. THESIS DIRECTOR

2007-2014 Thirty-six memoirs of community pharmacy (continuous education)

2011 Diploma work, FPH degree in community pharmacist (post-graduate). [Lamicela Carmela. Quelles ressources à disposition du pharmacien en officine pour l'orientation du client/patient dans le réseau socio sanitaire genevois ?]

16. CONGRESS PARTICIPATION

Posters

2004

- Société Suisse de Santé Publique. La santé à Meinier: un projet de vie intergénérationnel. [Swiss Society of Public Health: Health at Meinier: a project of intergenerational living]

2006

- Société Suisse de Médecine Interne. La santé à travers un projet de vie intergénérationnel. [Swiss Society of Internal Medicine: Health through a project of intergenerational living]
- European Union Geriatric Medicine Society. Remain in control of one's life: a council project in Meinier.

2007

- Société Suisse de Médecine Interne. Un enseignement par des médecins pour des pharmaciens d'officine pour une meilleure prise en charge et une orientation efficace dans le réseau socio-sanitaire. [Swiss Society of Internal Medicine: Training of dispensing pharmacists by doctors to provide better treatment and counselling]

2008

- Geneva Health Forum. How a commune in Geneva takes action in terms of health, well-being and quality of life.
- Geneva Health Forum. The role of University in the evolution of health services to meet the needs of the population -the example of the dispensary.
- Société Suisse de Médecine Interne. Pour une plus grande place de l'enseignement de santé communautaire dans les cursus de médecine clinique. [Swiss Society of Internal Medicine. Request for more teaching of community health in the clinical medical degree course]

2010

- Academy Health. Boston. Lime Tree Project: Improving the health of a Swiss community through real community participation.

2012

- Geneva Health Forum. An evaluation of the Lime Tree Project: the creation of a new village center and an intergenerational living space near Geneva, Switzerland.
- FIP Centennial Congress of Pharmacy and Pharmaceutical Sciences. What can a drugstore pharmacist do to guide patients into the public health network in Geneva?

2013

- Société Suisse de Médecine Interne. Lime Tree Project: health promotion by intersectorial action within a community-campus-local authority partnership.

Spoken presentations

2005

- Société Suisse de Médecine Interne. Lutte contre les maladies diarrhéiques au Cameroun : désinfection de l'eau par le solaire. Quelle situation 5 ans après ? [Swiss Society of Internal Medicine: Fighting diarrhoeal diseases in the Cameroon: using sunlight to disinfect water. The situation 5 years later]

2006

- Geneva forum Access to health, Hôpitaux Universitaires de Genève. Changing Health Behaviour: Long-Term Integration of a Solar Water Disinfection Method (SODIS) into a Small Rural Cameroonian Community.

2007

- University of Paris Diderot. Attendance by invitation. Towns and mental health. "Sick individuals and sick populations ", les concepts de Rose sont-ils applicables à la santé mentale ? [Are the concepts of Rose applicable to mental health?]

2008

- Santé Publique Suisse. Enseigner la santé communautaire par le service à la cité. [Swiss Public Health. Teaching community health by service to the city]

2009

- University of Sapporo. Hokkaido, Japan. Attendance by invitation. The Swiss public health network.
- The Commonwealth Fund. New York. Attendance by invitation. The Swiss Health System.
- Foundation Delmarva. Washington. Attendance by invitation. Community participation: A Swiss example of a new village model.

2010

- Santé Publique Suisse. Attendance by invitation. Health Care Policy and Practice in the United States. A Harkness/Careum Fellowship experience.
- Fondation Brocher. Genève. Attendance by invitation. The American Health Care System Reform.
- Careum Congress. Zürich. Attendance by invitation. Community-campus-partnerships: news ways of engagement.

2011

- Alliance for Health Promotion. Health promotion forum. Attendance by invitation. A Swiss village model which addresses local health needs through community campus collaboration.
- Clinical Pharmacology talks. HUG, Geneva. Vers un nouveau profil professionnel pour le pharmacien. [Towards a new professional profile for the pharmacist]
- Second international graduate school intensive course on ageing society and sustainable development. Sapporo, Japan. Attendance by invitation. Solving ageing issues: a Swiss village model.

2012

- Robert Bosch Stiftung. Stuttgart. Attendance by invitation. A Harkness Fellow in Washington DC: the health care reform.
- Alliance for Health Promotion. Health promotion from a community perspective. Geneva. Attendance by

invitation. What does the North Karelia Project teach us: questions to Pekka Puska.

- City of Geneva. Cité Seniors. Attendance by invitation. La ville rêvée pour les aînés [The dream city for senior citizen].
- University De La Salle. Manila. Attendance by invitation. What infant mortality and maternal mortality rates teach us. A comparative analysis between Switzerland and the Republic of the Philippines.
- Alliance for Health Promotion. Geneva. 2nd Health promotion forum. Attendance by invitation. Giving back public health to the public. Back to basics.

2013

- Alliance for Health Promotion, IGH, WHO. Geneva 3rd Health promotion forum. Attendance by invitation. Health promotion from a local perspective. Introduction and Chair of the session.
- WHO. The 8th International Conference on Health Promotion. Helsinki. Lime Tree Project: health promotion by intersectorial action within a community - campus - local authorities partnership.
- Société Médicale de Genève. Conférence Julliard-Revilliod. La relation médecin-pharmacien: un revolver sous l'oreiller [The medical doctor – pharmacist relationship: a gun under the pillow]
- Hokkaido University. Sapporo, Japan. Global Health Consortium. Attendance by invitation. The Swiss Health Care System: a survival guide.
- Hokkaido University. Sapporo, Japan. Global Health Consortium. Attendance by invitation. University of Geneva: Swiss made, internationally thought. Tracks for collaboration.
- Hokkaido University. Sapporo, Japan. Symposium on Health in an Ageing Society with Declining Fertility. Attendance by invitation. Community, authority and campus partnership: A triologue for an ageing society.

2014

- Forum Européen de Coppet. Attendance by invitation. Ma commune, ma santé.
- Hokkaido University. Sapporo, Japan. Global Health Consortium. Attendance by invitation. Studying abroad: the University of Geneva.
- Alliance for Health Promotion, IGH, WHO. Geneva 4th Health promotion forum. Attendance by invitation. Innovation and new approaches for health promotion. Chair session on social links and health promotion.

2015

- Inauguration Campus Biotech. Geneva University. Attendance by invitation. Promouvoir la santé par l'architecture urbaine adaptée [Health promotion through an adapted urban architecture]. In collaboration with Jean Simos.
- Alliance for Health Promotion, Graduate Institute. Geneva 5th Health promotion forum. Attendance by invitation. Lime Tree project: assessing community participation.

2016

- Geneva Health Forum 2016. Attendance by invitation. Role of campus in promoting community participation for health promotion.

Congress organization

2010

- Toward a National Policy of Community Participation in Health Care. An international symposium. Washington D.C. With sponsoring and partnership of George Washington University, Careum Foundation, University of Geneva, The Swiss Embassy, the Commonwealth Fund, Hokkaido University, Primary Care Coalition of Montgomery County, Consumer Health Foundation.

2012

- 2nd Health Promotion Forum. Accelerating Promotion Outcomes from Local to Global. Alliance for Health Promotion. Geneva. (Non institutional collaboration)

2013

- Symposium on Evaluating Community Participation and Health Outcomes: Theory and Practice. Geneva. With sponsoring and partnership of Swiss Agency for Development and Cooperation, University of Geneva, Association Mali- Genève, Alliance for Health Promotion, Peradeniya University, Hokkaido University.
- 3rd Health Promotion Forum. Building Capacity for Health Promotion Inter-sectorial Partnerships between Civil Society and Government. Alliance for Health Promotion, Institute of Global Health, WHO. Geneva.

2014

- 4th Health Promotion Forum. Innovation and New Approaches for Health Promotion. Alliance for Health Promotion, Institute of Global Health, WHO. Geneva.

Community events organization

2015

- Journée intergénérationnelle [Intergenerational Day]. Parc des Evaux, Commune de Onex. Alliance for Health Promotion, Association genevoise pour le développement communautaire. Geneva.
